

# ACUA Remote Access with Android

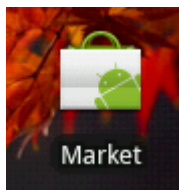

With the new version of Citrix that ACUA IT recently installed, there is now support for remote access using your Android mobile devices. This document covers the steps on downloading and installing the Citrix receiver software on the Android device.

## Prerequisites for this program:

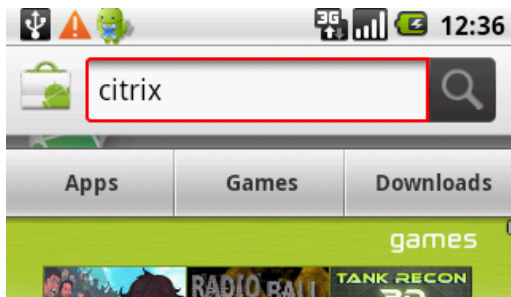

1. Must have an Android device with 2.0 or higher version of the operating system.
2. Must have either a 3G or Wi-Fi connection (internet access) on the device.
3. Must have an iTunes have access to the Android Marketplace
4. Having basic knowledge of using your Android device is assumed.

## Installation Steps:

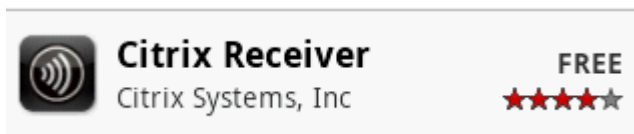

1. Turn on your iPhone/iPod Touch device and ensure you have an internet connection (3G or Wi-Fi)
2. Launch the Android MarketPlace

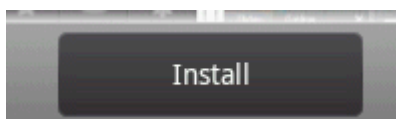

3. Tap on the search button and search for Citrix.

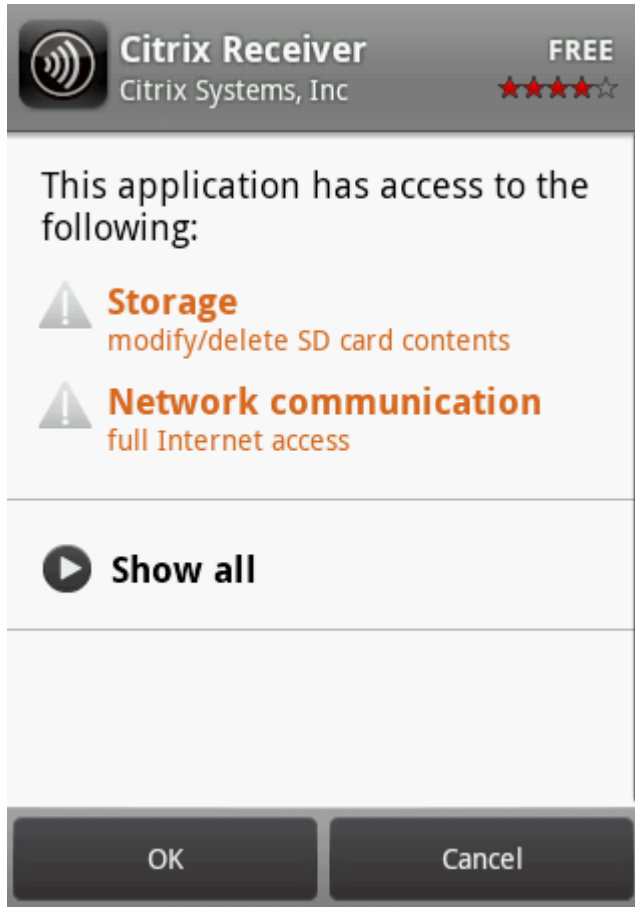

4. The Citrix Receiver should be in the search results, Tap on it to open.

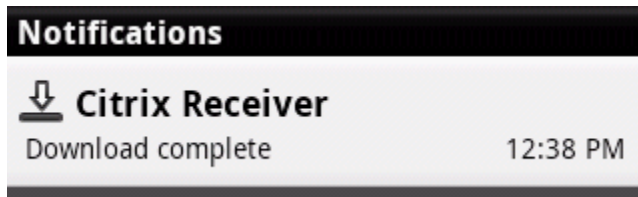

5. Tap on Install to download the application.

6. Tap OK on the next prompt.

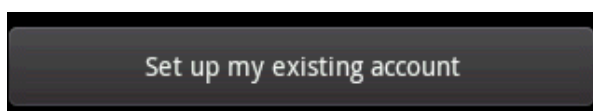

7. The program will download and your notification bar will display download complete.

8. Citrix will now be available in your applications list, tap on the program to launch.

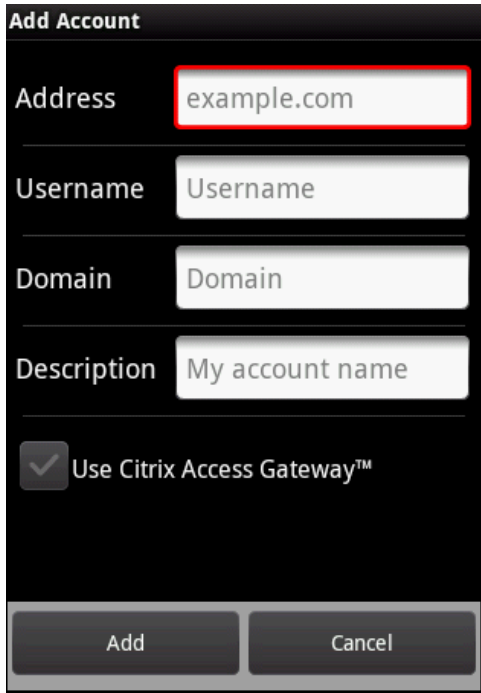

9. When you first launch the Citrix Receiver application, you will be greeted with the welcome screen. Tap on "Set up my existing account"

10. In the Add Account screen you will need to enter the following information:

- Address: <https://remote.acua.com/citrix/mobile/config.xml>
- Username: *Your ACUA Login*
- Password: *<Leave Blank>*
- Domain: *nt\_acua*
- Description: *ACUA*
